

Intern (f/m)

Business Development

Full Time

MEDICAL MAGNESIUM

Medical Magnesium is a high-tech start-up based in Aachen, Germany. MM is set to revolutionize modern patient care by introducing resorbable orthopedic implants made of magnesium.

A breakthrough technology enables MM to develop a new class of resorbable implants. This allows surgeons to perform a single surgery therapy for many fractures. Thus, second removal surgeries of implants become obsolete for many patients.

YOUR ROLE at MM

We are looking for a Business development Intern (f/m) to join our team. At MM you have the opportunity to further develop your business skills. We challenge you to implement your own ideas in a dynamic high-tech startup environment. You will focus on business development projects within Operations, Strategy and Finance, Marketing and Sales such as:

- Market entry and reimbursement strategies
- Build and advance our operative business processes
- Develop and execute marketing strategies

YOUR PROFILE

- Student of Industrial Engineering, Economics, Entrepreneurship or similar (at least 4th semester)
- Passion for innovation, technology and drive for discovering new approaches
- Pragmatism and ability to work independently
- Enthusiasm at work and flexibility to master challenges
- Engagement and responsibility for your work
- Fluent in English and German (written and verbal)

Apply with your CV, 3 sentences about you and your motivation to join our team and your availability (at least 3 months)
